TECHNICAL SKILLS

Programming languages

- Python
- SQL (MySQL, PostgreSQL)
- Java

Frameworks and technologies

- Node.js
- React
- FastAPI
- Django

Data Science / Machine Learning

- NumPy
- Pandas
- Scikit-learn
- PyTorch
- TensorFlow
- Jupyter Notebooks

Infrastructure and tools

- Docker
- Nginx
- Apache
- Git
- Linux
- REST API

PROFESSIONAL EXPERIENCE

Fullstack Developer (Intern)

Procforce | 06.2026 - Currently

LANGUAGES

- **Polish: Native**
- **English: Intermediate (B2)**

SOFT SKILLS

- Analytical problem-solving
- Proactive learning
- Team-oriented
- Attention to detail
- Technical documentation creation

EDUCATION

Engineer - Applied Computer Science
University of the National Education
Commission in Krakow
2024.10 - Currently

Profession - IT Technician
Technical and IT School Complex in
Mszana Dolna
2019.09 - 2024.05

ABOUT ME

Applied Computer Science student interested in web application development, backend programming, and modern technologies. I'm eager to develop my own projects, acquire new skills, and expand my knowledge of software engineering and IT infrastructure.
